

Quantification Sheet for Coating Work

Package Units and Machinery

DCN No.: 421

To be completed by Vendor

Equipment Item (or part)	Type of skin material CS/SS	Coating			Coating Material		Remarks
		Sur-face (m ²) (1)	MOT in °C (2)	System	Supply by Vendor (3)	Install. by Vendor (3)	

Summary of attachments by Vendor:

Notes

- (1) Measured over the outside surface to be coated.
- (2) MOT means maximum operating temperature of equipment (not considered are foreseen upset conditions). For internally lined equipment, MOT shall mean the maximum skin temperature.
- (3) Vendor to indicate YES or NO in this column.
- (4) Vendor to state reference to applicable specifications such as:
Company/Purchaser's specifications or Vendor's attached specification, together with relevant coating repair procedure. It is Vendor's responsibility that his subvendor's work is also stated on this sheet.
